FEATURED ARTICLES

HOW HOT IS TOO HOT?

With the Summer soon approaching, this is a great time to address the question many safety professionals get when that dreaded heat advisory is issued by Environment Canada.

EMPOWER TO SPEAK UP SPEAK OUT!

With the summer upon us and many young workers (age 14-24) are starting their summer jobs, safety organizations around the country put together young worker campaigns and safety blitzes to keep our young workers safe... but why? Why exactly do young workers need more attention and safety information than anyone else? [Read more...](#)

This month, we will be providing you with additional resources for our Speak Up Speak Out campaign. A link to some of the posters are available below, others will be shared via [Facebook](#) and [Instagram](#), so connect with us.

HOW CAN EMPLOYEES AND MANAGERS BE MOBILIZED TOWARDS A COMMON GOAL?

There are ways of positively transforming

passive attitudes and behaviours, including involving employees in the identification and control of risks. Employees possess levels of expertise that are largely underestimated.

WHERE IS MEGAN ROWAAN?

We miss her at Dunk & Associates. Click [here](#) to find out what she's been up to.

TECH TALK: GEEK SPEAK

Most people at one point or another have a conversation with a Technological person; whether it be in a business meeting or even with technical support for your computer or cell phone.

One of the easiest ways to understand the technological jargon is to break down some of the key terms that technology professionals use in their day to day lives. To make things easy we have included a chart with 3 types of definitions.
